Security lock and rubber gasket seal Installation

SECURE YOUR HOME AND CONSERVE YOUR ELECTRIC CONSUMPTION.

Dubai House Doctors LLC can provide a cost effective, durable, and secure solution of all of your security and safety needs. We will install top of the range security locks throughout your house doors and windows, guarantee you and your love ones the safety and security you deserve. We also offer a rubber gasket seal that fits within the inner profile of the windows and doors to prevent dust, water and heat from entering the villa. Not only would you save on you're electric bill every month you will also prevent condensation from dripping from your ceilings and feel a temperature change instantly while increasing you're A/C life.

For different security locks and rubber gasket installation packages contact us and speak to our experienced staff.

Roofing Repairs

Are your roofs leaking during the rainy season?

Are your valuables getting damaged during this event?

Are you unhappy that your walls start creating water marks, water damage and the paint starts peeling off?

We have the solution for you.

We have a British qualified roofer that can repair your roof in no time. We won't patch repair but strip off your entire flat roof and relay the waterproof felt in a proper manner so that you would not have any hassle of water damage this winter or the next 10 winters as our work comes with a 10 year gurantee.

We relay the water proof membrane at a angle to insure the stagnant water would run freely towards the drains. For a full repair and relay of your flat roof please contact DHD LLC for a hassle free quote.

100% Satisfaction Guaranteed
